

- This summer project will be a combination of various activities that you select from the following options.
- You must document each activity exactly as directed, compile all your documentation together, and turn it on the first day of school.
- The project will count as a test grade.
- Your goal is to earn 100 points by combining the following activities however you choose.
- The highest grade you can earn is a 100.
- On-line drills and games (*listed below in italics*) must account for at least 25 points and may not account for more than 55 points. Any points above 55 from on-line activities will not count.
- You may get credit for ONE movie only. Points earned for additional movies won't count.
- False documentation of any sort will result in a zero for the entire project with no alternative assignment allowed. I will spot check with parents to confirm their signatures.

You may not repeat any specific activity from a previous summer. You may watch a DIFFERENT movie, read a DIFFERENT book, do on-line practices at a higher level, make a DIFFERENT traditional dish, etc. You may not repeat the piñata activity. You may pray for the same missionary, but you need to get in touch with him/her again to find out new prayer requests. If you would like to propose an activity I don't have on the list, you may ask me about it via e-mail. E-mail me with any questions.

**READ INSTRUCTIONS CAREFULLY**  
to ensure receiving full credit.

AP students: Look for a summer assignment in your e-mail. (I know it includes AP below, but check your e-mail instead.)
